

GOURAV DAS

Kolkata, West Bengal | gouravdas350@gmail.com | +91 89104 18563

Portfolio: my-portfolio-sigma-nine-62.vercel.app | [GitHub: github.com/grvd5678](https://github.com/grvd5678) | [LinkedIn: linkedin.com/in/gourav-das-7a94a02b1](https://linkedin.com/in/gourav-das-7a94a02b1) | X: x.com/gourav_das17281

PROFILE

Versatile Software Engineer with a strong foundation in Computer Science & Engineering. Proficient in full-stack development (React, Node.js, Django) with practical exposure to Big Data (Hadoop/HDFS) and Machine Learning. Experienced in building RESTful APIs, optimizing databases, and deploying responsive UIs.

TECHNICAL SKILLS

Core Specializations: Full-Stack Web Development, MERN Stack, Backend Engineering

Languages: JavaScript (ES6+), Python, Java

Frontend Development: React.js, Vite, HTML5, CSS3, Tailwind CSS

Backend Development: Node.js, Express.js, Django, RESTful APIs Architecture

Databases & Storage: MongoDB, MySQL, Oracle SQL

Cloud & DevOps (In-Training): AWS (EC2, VPC, S3), Linux Systems Administration, Git, GitHub

Core Computer Science: Data Structures & Algorithms (DSA), DBMS, OOP, Computer Networks

Security & Architecture: JWT Authentication, Role-Based Access Control (RBAC), CRUD Design

Emerging Technical Exposure: Big Data Foundations (Hadoop, HDFS, Spark), Machine Learning Concepts

TRAINING & INTERNSHIPS

AWS re/Start Cloud Trainee, Tata Strive (Jun 2026 - Present)

- Provisioning and configuring core AWS services (VPC, EC2, S3), Linux administration, networking, and IAM/security fundamentals.
- Applying cloud architecture and security best practices through a structured, project-based curriculum.

Full Stack Web Development Trainee, Teknowgrade Pvt. Ltd (Online) (Feb 2026 - Apr 2026)

- Built dynamic web applications using Django, implementing authentication, backend logic, RESTful APIs, and database integration.
- Developed responsive user interfaces with HTML, CSS, and JavaScript, gaining hands-on experience with CRUD operations.

Bootcamp: Blockchain & Big Data Analytics, NIELIT Kolkata (Govt. of India) (Feb 2026)

- Completed a 90-hour bootcamp covering blockchain fundamentals and Big Data technologies (Hadoop, HDFS, Spark, Hive).
- Applied HDFS for data storage, managing directories and file operations via command-line on Linux.

Industrial Training: Machine Learning Using Python, Ardent Computech Pvt. Ltd (Aug 2023 - Sep 2023)

- Learned supervised/unsupervised ML algorithms; performed data preprocessing, feature selection, and model evaluation.
- Built a basic recommendation system as a capstone project for the training program.

PROJECTS

Fake News Detection (ML) (Jul 2026)

- Built a TF-IDF + Logistic Regression classifier following a stratified 70:10:20 train/validation/test split with fixed random seeds for full reproducibility.
- Achieved 98.57% accuracy, 98.63% F1-score, and 0.999 AUC-ROC on an unseen test set of ~9,000 news articles.

E-Commerce Web Application (Full-Stack) (2026)

Live Demo: ecommerce-frontend-production-8d98.up.railway.app

- Built 40 REST API endpoints across 11 route modules (auth, products, orders, cart, reviews, admin, payment), backed by 8 MongoDB collections.
- Implemented JWT authentication with OTP verification, RBAC for admin/seller/buyer roles, and integrated payment processing.

Personal Portfolio, React, Vite, Tailwind CSS (2025 - 2026)

- Built a fully responsive portfolio site showcasing projects, skills, and contact details with modern UI design patterns.
- Achieved a perfect 100/100 Lighthouse score across Performance, Accessibility, Best Practices, and SEO.

Heart Disease Prediction System (ML) (2024 - 2025)

- Built and evaluated 5 classification models (Logistic Regression, KNN, SVM, Decision Tree, Random Forest) on a structured medical dataset.
- Achieved up to 82% accuracy with Logistic Regression and Random Forest (100 estimators), the top-performing models.

Movie Recommendation System (ML) (2023 - 2024)

- Built a content-based movie recommendation engine using Python, applying cosine similarity across the TMDB dataset of ~5,000 movies.

Additional projects (Hadoop File System Management, Joke Generator app) available on portfolio site above.

EDUCATION

B.Tech, Computer Science & Engineering, Future Institute of Engineering and Management (MAKAUT) (2021 - 2025-26)

CGPA: 7.56

Higher Secondary (Science), Kendriya Vidyalaya Fort William, Kolkata (CBSE) (2021 | 76.00%)

Secondary, Kendriya Vidyalaya Fort William, Kolkata (CBSE) (2018 | 61.20%)

CERTIFICATIONS

- Advanced Software Engineering Job Simulation, Walmart Global Tech (via Forage)
- Front-End Software Engineering Job Simulation, Skyscanner (via Forage)
- Full Stack Web Development Certification, Teknowgrade Pvt. Ltd
- Industrial Training Certificate, Machine Learning Using Python, Ardent Computech Pvt. Ltd
- The Complete Oracle SQL Certification Course, Udemy (16.5 hrs)
- Bootcamp Certificate, Blockchain & Big Data Analytics, NIELIT Kolkata (Govt. of India)
